officers Make a Futile Effort to Recapture the Train Stelen by Hogan's Army.

FINALLY SURRENDER TO THE TROOPS.

Frye's Army Also Selze a Train-In the Fight One of the Officers and One of the Caxeyites are Wounded.

BILLINGS, MONT., April 25 .- The first bloodshed resulting from the clashes beween the law and the Industrial army ovement, which is now sweeping over the country, in a wave of monster pro-portions, was witnessed here to-day. About 11 o'clock this morning this little city was thrown into wild excitement by the announcement that the train-stealing contingent of the Coxey army was rushing into the city on a Northern Pacific train from the West at a high rate of speed, closely followed by a trainload of United States deputy marshals.

OVERTAREN BY THE MARSHAL . The truth of the statement was verified few minutes before noon, when the oxeyites were overtaken by the special rain of the marshals just as they entered the limits of the city. After their arrival t was learned that the marshals train overtook the Hogan contingent just as overtook the Hogan contingent just as they were pulling away from Columbus (formerly known as Stillwater), and attempted to arrest the progress of the train bearing the 100 unemployed who are in possession of the train. The leaders would not yield to the demands of the unarshals to give up the train, and instructed their men to go ahead, which was done. The two trains came on during the forenoon hours until this city was reached, when a stop was ordered, the conflict between the two bodies resulting.

FIRED REPORE THE ORDER WAS GIVEN. As near as can be learned, Marshal McDermott ordered the leaders of the captured train to surrender, and when they refused to do so, a few of the marshals, before receiving a command to do so, fired upon the crowd of men on the s. The shots were quickly returned by industrials. A number of shots were hanged between the parties before Marshal McDermott could regain control of his men. During the firing one of the deputies was seriously wounded and one of the men on the rear platform car was shot in the groin. McDermott decided that his men were not equal to the odds against them and ordered his men to de-sist firing, which they did. The captured train soon after pulled out from the de-pot and McDermott notified the authories that his force was inadequate to capermined to retain possession of the train.

It the latest advices the captured train continuing its way to Miles City, where it is expected the national troops will arrest them and recover the train.

Troops in Walting at Miles City. MILES CITY, MONT., April 25 .- The overnment troops at Fort Keough are readiness to march at a moment's no-co when the expected order is received proceed to capture the Northern Pa-c train now in possession of the 500 pemployed en route to this place. It possible that the captured train will y up for the night before reaching his city, in which case the troops will not e moved before morning. The authorles are being kept fully advised of the ovements of the train by the Northern Pacific telegraph operators along the line. The garrison at Fort Keough con-sists of 500 men, with a gatting battery, Col. Page is in command. The probability that the leaders will be returned to utte under military escort. Walle there Hogan got a message that the bluff three miles from Columbus, on the Crow reservation, had been blown up, causing a rock to slide on the track. The men were ordered to take the Montana division tool-car, containing \$1,000 worth of tools. The men pushed the car off the side track to the main line, where off the side track to the main line, where the engine caught it and coupled it to the train. Two more box-cars were then taken from the side track. The train taken from the side track. The caught have train to the road once more. The recruiting office has been closed. No more men will be enlisted. Coxey says he is afraid to take more than 350 men over the stretch of more than 350 men over the stretch of road from here to Rockville, from fear of suffering from hunger.

Federal Authorities Act.

WASHINGTON, D. C., April 25 .- Gen. Schofield, commanding the army, last night sent a telegram to General Swayne, commanding the Department of Dakota, instructing him, by direction of the President, to have a sufficient force sent to arrest all persons engaged in the unlawful seizure of the Northern Pacific

unlawful scizure of the Northern Facina train at Butte, Mont., to hold the train and all on board until they can be delivered to the United States Marshal of Montana, subject to the orders of the United States District Court.

In the opinion of government officials none of the so-called army movements of the unemployed is so formidable as that along the line of the Northern Pacific railroads. The telegrams received here state that bands ranging from ed here state that bands ranging from 50 to 200 men are congregated along that road with the avowed intention of eming to Washington by peaceable means if possible, but by forcible means if they must. Already one or two trains have been seized, and constant threats are being made of seizing others. At-torney-General Olney to-day telegraphed the United States Marshal of Washington to use every means in his power to maintain the peace and the security of property. United States marshals in Montana, North Dakota, and Minnesota had previously been instructed to the same effect, and all of them are directed to promptly notify the Department of Justice the moment they are unable to control the populace. NO INTERFERENCE IN LOCAL AFFAIRS.

The orders of the President for the roops to intercept the Northern Pacific croops to intercept the Northern Pachic train and arrest the runaway Hogan contingent was issued solely to command respect for the mandate of the United States Court, and was not in any sense a national interference in local affairs. It is explained at the White House that the Butte miners had applied to the Northern Pacific officials (that road being in the hands of Government receivers) for free transportation to Washington, when this was refused the strikers broke into the round-house, seized a locomotive, coupled cars to form a train, and when the United States Court granted an injunction against this section and issued an order for the arrest of the marauders, and the United States marshal attempted to execute the orders with as strong a posse as he was able to summons to his aid, his forces were over-powered and the stolen train escaped. When these facts were reported to the Department of Justice they were brought to the attention of the President, with the recommendation of the Attorney-General that the Federal authority be supported by troops, that being the sole alternative left to the Government. The President at once called the general comnanding the army into the consultation manding the army into the consultation and after fully considering the matter General Schoneld was directed to call upon the commander of the Department of Dakota (in which military department the affair took place) to send a sufficient force of troops to arrest all persons engaged in the unlawful seizure of the Northern Pacific train at Butte. They spent last night near here, using the railroad company's fences and ties for fuel. One train was side-tracked to prevent the Commonwealers seizing it. When the trains were started this afternoon, the three hundred soldiers made a rush for a freight and captured it. The engineer was told that the Industrials had railroad men in their ranks and that if he refused' to start the train he would be put off and one of their own men to take the throttle.

The trainmen were unable to prevent them riding, as the Industrials were de-termined, and any resistance would have resulted in obcodshed. Brazil, being in-the heart of the Indiana coal district, and as hundreds of miners are out on a strike, there may be serious trouble, as the miners will, on account of being residents, claim the charity of the city in preference to the Industrials. The members of the army say they will con-tinue to burn the railroad company's fences until their blankets and cooking utensils are brought back to them. The army was desperate last night, and a detail of police surrounded the city.

BROWNE'S BANNERS OF PEACE.

They Consist of Oak Sticks Heavy Enough to Brain with One Blow.

WASHINGTON, April 25.—A special from Frederick, Md. to the Post says: Aside from the excitement in camp this evening there was another incident that was worthy of note, as, possibly covering

one of Browne's deep-laid schemes. He calls it "Issuing banners of peace" to the men. It is likely that the Washington authorities would term it making an armed body of the Commonweal. The "banners of peace" are about five by tweive inches, made of cotton, and printed with "Peace on earth and good will towards men." They are neither remarkable nor formidable. But the stocks on which they are carried are four-foot oak clubs an inch square, and heavy enough to brain a man at a blow.

In addition, they are to be shod with

enough to brain a man at a blow.

In addition, they are to be shod with an iron socket, ostensibly to hold a bayonet, but when 300 men are armed with these weapons they will be a formidable body indeed. Browne may be perfectly sincere in his expressed desire for peace, but a smaller one would have been much less expensive than the load of oak. The sticks were received only to-day, and it is though that the heretofore unexplained stop-over here was to allow time for their manufacture. The men on picket duty around camp to-night are equipped duty around camp to-night are equipped

SEATTLE, WASH. April 25.—The Northwestern Industrial army, 1,000 strong, made up largely of men who came to the northwest to work on the Great Northern and the Everett and Monte Northern and the Everett and Monte Cristo railways, will start on foot this evening for Washington city. The next day they will march to Puyallup, where the Tacoma contingent, about 500 strong, will join them. Hopes are still entertained of securing transportation from the Northern Pacific, but failing in making Northern Pacific, but failing in making this arrangement, the evident intention is to board the first east-bound freight train. The army is organized in com-panies of about sixty men each.

INDL-NAPOLIS, IND., April 25.—For over tyelve hours to-day and to-night, without a single recess for a bite or a sup, the 1.500 delegates to the Republican Sute Convention devoted themselves to the making of a party ticket to be voted in in November. This extraordinary session was due to the fact that there were no less than 43 candidates for the ten nominations, and taking their key-note from the speeches of expresident Harrison and ex-Secretary Thompson, both of whom suggested that a Republican nomination this year was equivalent to an election, the supporters of each candidate fought to the last ditch for their favorities. Three, and in some cases four ballots were required for each nomination, and as the net results of nine hours calling of the roll, four nominations had been made up to 8 o'clock to-night.
